WIA - The Project

Explained

Web Interaction & Animation
Web Design & Development Bachelor of Science Degree

**Web Interaction
& Animation**

The Project

- You will build a website for a company (Made up or Real, with permission)
- Must have the following:
 - A homepage
 - Have at least two uses of jQuery effects
 - Check for features with Modernizr and provide fallback content for legacy browsers
 - Real content is need, Lorem Ipsum, will not be accepted.

The Project

- Must have at least **4 of 6** the following:
 - An Animated Bar Chart
 - An Interactive Map
 - An Interactive Image Gallery
 - An Interactive Data Visualization
 - At least one use of the HTML5 Video and/or Audio tags
 - 2 Uses of the HTML5 Canvas tag

Project #1

- Design will count!
 - This means make it look professional.
- Follow the rubric, this is what I will be using to grade it.
- We will be covering animated maps and timelines in our next class.
- Get started on your design and basic layout today.

Artwork & Media

- You will be responsible for the artwork for your site.
 - DO Create it yourself
 - DO Use royalty free images and video
 - DO NOT use anything that you do not own the rights to
- Sound effects (if you want any)
 - You can use WestStar on the Library sites

Turning It In

- Upload a zipped file named :
`last_first_WIA_The_Project.zip`
- This should also be in your GitHub account
